TO CONTINUE. Inquiry Which May Rival Insurance

New York, Nov. 15.—While the legal machinery of the government moves slowly, the air of uncertainty which surrounds the so-called sugar fraud cases is interpreted by those who bave followed the progress of corporation investigation in this country to fore-shadow an inquiry which may rank with the insurance upheaval of 1965.

Boston and Philadelphia were brought within the scope of the investigation today, with the report that the government would probably attempt to obtain back duties due on sugar in those cities, while the investigation went on in New York with repeated rumors of reaching the "men filters and the surround of the said:

Reid Tells of Suicide Pact

HEARING IN OFFICE OF CHIEF OF POLICE.

HARTFORD CASE IN DETAIL

Survivor, Weak and Emaciated from Drug Taken, Describe

Hartford, Conn., Nov. 15.-The gruesome tale of a suicide compact which in fulfilment cost the life of Blanche Ferguson of Washington and her companion, Fred J. Reld of Cleveland, just eccaped a like fate, was told this afternoon in detail by Reid at a hearing in the office of the chief of police.

It was brought out that the couple, who had known each other only two weeks, made two attempts to die. The first night of their arrival in this city they partook of the contents of a vial of morphine, purchased in New York. As each drank the dregs from a cocktail glass they clasped hands in mute farewell and lay down to sleep, hoping and believing that they would know no awakening.

Second Time the Girl Never Awoke the terminal themselves alive the next morning, they prepared to renew their attempt to kill themselves. They discussed their plans for several days and came to the conclusion that a larger dose of the drug was necessary. Reid had the vial refilled in this city, and the couple agent their larger morning. Reid had the vial refilled in this city, and the couple spent their last money in decorating their death chamber with fresh white flowers. They made up a potion in the same cocktail glasses as before clinked the glasses in a last toast, drank the contents and went to bed to sleep. The girl never awoke. Reid was saved last Saturday by prompt medical attention.

Had Used Money Belonging to His Employer.

Employer.

This afternoon it was decided that his brain had sufficiently cleared for him to be brought to a hearing to determine if, he should be charged with murder. Under examination Reid, ghastly, white and emaciated from the effects of the drug, told the story. He denied that he handed the poison to the girl. He said he helped himself, and she did the same. As a result of the story told by Reid, the police believe that he was prompted to attempt his life by remorse and because he had used money belonging to his employer. This money, according to Reid, was to be used in paying workmen under him in Cleveland, a dozen of whom were to in Cleveland, a dozen of whom were to each receive a week's pay. This state-ment of Reid's is in a measure sus-tained by inquiry made by the police.

His employers have notified the chief f police of Washington that they are eady to take Reid back, if he cares ready to take Reid back. If he cares to come, and they will send him a teket to carry him to Cleveland. Meanwhile Reid will be held under the technical charge of assault until the police clear up a few points on which the man has said little or nothing.

The body of the woman was sent to relatives at Papiata, Md., tonight.

Reid was taken from the hospital in an ambulance, and had to be carried by attendants into police headquarters as he was too weak to stand.

TWO BROTHERS CONVICTED OF CONCEALING ASSI

The explorers reported that they walked in a vein of the mine for 158 feet from the base of the shaft, and that they found no living man or corpse. The atmosphere in this vein was considerably better than they had expected. Withe the ald of their elec-

much smoke was encountered and nothing could be seen. A consultation followed and it was determined to start the ventilating fan at the opposite side of the mine. This was to clear the galieries of the smoke, Some believed that the draft might arouse a slumbering fire. Others felt assured that the fire had been smothered and that ventilation would clear the galleries and make them passable for the leries and make them passable for the searchers.

In half an hour the fan was sudden-ly ordered stopped. Smoke began to pour from the main shaft and the ex-perts were lowered again to investigate

experts came up again.

They reported that a blaze, of which there had been no evidence before the fan was started, had been discovered in the stable portion of the mine where the original fire occurred. They had been unable to extinguish it with hose. However, a second attempt to drown the fire was planned. But dense clouds of smoke began to pour out and the temperature around the shaft began to rise. The experts could not re-enter the mine.

Shaft Again Sealed.

G. F. Rice of Pittsburg, of the Unit-ed States geological survey, and the mine inspectors, decided they must seal the shaft. Within a few minutes the smoke was driven back into the shaft, which was covered with steel sheets and a heavy layer of sand. The men and women with loved ones in the mine turned away in de-

New York, Nov. 15.—Mary Baker G. Eddy's infinence swayed two thousand followers at a special mass meeting at the First Church of Christ, Scientist, in this city today, and the trustees, called to consider charges against Virgil O. Strickler, the present first reader and opponent of Mrs. Augusta F. Stetson, deposed from that position, adjourned without taking action. This is tantement to an enion. This is tantamount to an en-orsement of Strickler and a negative rebuke of Mrs. Stetson, who was clos.

Whatever be the outcome of the Boston hearing, leaders here say that the Strickler incident is closed and that no action will be taken on the allegations that it was he who accused Mrs. Stetson and instigated the present controversy. Mr. Strickler nimself presided at the meeting today and a clash between the Stetson and anti-Stetson factions was expected until Mrs. Eddy's letter, addressed to the board of trustees, was read.
